

JETSTREAM IMPULSE LOW S1 ESD HRO SRA

Art. No. 64.753.0

Protection: fiberglass toe cap

Plus: ESD, metal free, breathable functional lining, comfortably-padded collar and dust tongue

Upper: high-quality, breathable microfibre with abrasion resistant textile inserts

Lining: breathable functional lining

Footbed: anatomically formed comfit[®] AIR footbed

Sole: DUAL.IMPULSE - 300°C heat and slipresistant rubber outsole with double foamed IMPULSE.FOAM[®] midsole in two different densities for maximum cushioning, stability and comfort

Colour: black-blue

Sizes: 36 - 47

DUAL IMPULSE SLIP RESISTANT OUTSOLE

The easy to clean rubber outsole ensures perfect ground contact. It is non-slip and abrasion resistant as well as heat resistant up to 300°C (HRO). The specially designed cleat profile and the wide flex grooves guarantee optimum flexion, optimize the water-displacing properties (windscreen wiper effect) and provide firm grip on a wide variety of grounds.

comfit[®] AIR FOOTBED

The newly developed, breathable ALBATROS[®] comfit[®] AIR footbed has elevations in the heel and ball area of the foot as well as a support of the longitudinal arch. This helps the foot keeping its natural position in the shoe and stimulates the musculature while walking. The slip-resistant textile cover is odour-resistant, moisture absorbing and washable at 30°C.

IMPULSE.FOAM[®] midsole

Ultimate comfort during long working days. The innovative IMPULSE.FOAM[®] midsole in two different densities reacts to each of your steps with an energy impulse. Thereby the IMPULSE.FOAM[®] does not only return the energy, but also provides maximum cushioning and excellent stability.

FIBERGLASS TOE CAP

Fiberglass reinforced composite toe cap with more space for the toes, lighter than a common steel cap, antimagnetic and thermally insulating.
