Sizes: 40 - 47

SLIP RESISTANT XTS OUTSOLE

The off-road profile of the up to 300°C heat-resistant, non-slip rubber outsole (HRO, SRC) ensures optimal ground contact, especially on unpaved surfaces. The wide studs clean themselves while running (mud release) and ensure maximum flexibility.

JOINT STABILISATION

The carbon-look joint stabilization runs around the heel, which additionally protects against ankle twisting and supports the position of the foot in the shoe.

evercushion® CUSTOM FIT MID

The anatomically shaped evercushion® CUSTOM FIT MID footbed provides optimal cushioning with every step. The specially coordinated arch support enables the natural positioning of the foot in the shoe and stimulates the muscles when walking. Also available in the retail pack in the Versions LOW and HIGH, for narrow ones or wide feet.

UPPER

The upper made of robust full leather which is resistant to abrasion. The smooth and soft material offers more protection from penetrating moisture and is easy to clean.
