- Plus: cushioning IQ.Cell integrated in the heel area, TPU protection in the toe and heel area
- Upper: seamless knitted SAFETY KNIT™ textile
- Lining: BreathActive functional lining
- Footbed: evercushion® MISS
- Sole: rubber sole MISS SAFETY MOTION with Torsion Control System, 300°C heat resistant
- Sizes/Width: 35 - 42 / F

Rubber Outsole

This 300°C heat resistant HRO rubber sole is inspired by the latest running technology. The sole profile ensures a perfect flexibility and a secure contact to the ground.

SAFETY KNIT™

The high flexible textile cuddly fits to the foot so that you got the impression wearing a sock. The upper SAFETY KNIT™, a mixture of high quality synthetic fabrics, offers a high flexibility and a high resistance at the same time.

IQ.CELL

The gel pad directly embedded in the heel area works just like a trampoline – it absorbs shock energy and returns it immediately as bounce.

EVA Midsole

We injected billions of tiny bubbles in this ultra lightweight midsole for an optimal cushioning and an improved flexing action of the foot.

evercushion® MISS

This anatomically designed lightweight footbed with waffle structure will keep you cool and dry by transmitting moisture away from the foot in wear. The open cells also allow for rapid drying when the shoes are removed

Torsion Control Element

Our TPU Torsion control system in the waist of the sole provides you with a better support and stability.
